OBJECTIVE

Full-stack developer with around 2 years of experience, specializing in backend development using Node.js, Express, and Spring Boot, with hands-on expertise in frontend technologies like React.js and Next.js. Passionate about system design, problem-solving, and AI/ML.

EDUCATION

Master of Computer Science, SPPU Pune University   June 2023 - June 2025

CGPA: 9.0

Bachelor of Information Technology, Sinhagad Academy of Engineering   June 2019 - July 2023

SKILLS

Technical Skills   React.js, Node.js, Next.js, Java, Spring Boot, Redux (RTK), PostgresSQL, REST, JPA, Tailwind, Kafka.
Soft Skills   Problem Solving, Collaboration, Clear Communication, Adaptability, Time Management, Agile Teamwork.
Tools   GitHub, GitLab, Postman, Maven, MongoDB, MySQL, Docker, Spring Microservices, Spring Security, JWT

EXPERIENCE

Assistant Manager   Jan 2024 – Present
Jio Platforms Limited   *Ghansoli, Navi Mumbai*

- Worked on backend development using Node.js, Express, and Spring Boot.
- Built and optimized REST APIs to handle secure data flow across multiple systems.

Web Developer Intern   Jan 2022 - Feb 2022
TwoWaits Technologies Pvt. Ltd   *Remote, India*

- Developed and deployed frontend features using React.js and Next.js to improve user experience.
- Collaborated with senior developers to integrate backend APIs and perform state management with Redux.
- Improved UI responsiveness and cross-browser compatibility, enhancing overall application performance.

PROJECTS

Blog & Profile Application: Full-stack MERN blog CMS with authentication, CRUD features, image uploads, and secure route protection. Designed a responsive UI with Tailwind CSS, improving accessibility across devices.

(Try it here)

Smart Restaurant Manager: Built a face-recognition powered restaurant manager using React.js, Redux, Bootstrap 5, and OpenCV. Enables automatic customer identification, meal recommendations, and personalized dining experience, improving customer retention

Open-Source Contribution: Created a reusable Node.js utility to filter disallowed fields (e.g., from req.body). Published as an npm package (filter-object-fields), making it easy for developers to whitelist data in APIs and improve input validation.

EXTRA-CURRICULAR ACTIVITIES

- **President, ITSA** (IT Department), Sinhgad Academy of Engineering (2022–2023): Led the organization of educational, cultural, and social events at both departmental and college levels, fostering student engagement and collaboration.
- Organized and coordinated multiple academic workshops, cultural fests, and awareness drives, improving participation and event reach across 1000+ students.
